Dari/Farsi	Native
Pashto	Conversational
English	Fluent
Uzbeki	Basic

WORK EXPERIENCE

Software Engineer

First Rate Inc. (TX, USA) – Kabul Branch Office | Nov 2025 – Present

Developing the next generation of enterprise wealth management and reporting solutions used by top-tier banks and wealth management firms. Utilizing React, Next.js, and Material UI to construct secure, data-intensive dashboards that visualize complex financial analytics. Integrated frontend applications with SQL Server, WebFOCUS, and PHP backends to ensure accurate real-time reporting. Maintained code quality through established CI/CD pipelines.

WORK EXPERIENCE

Front-End Instructor & Department Head

Ulearna Educational Centre - Kabul | August 2024 - September 2025

Designed and delivered courses in HTML, CSS, JavaScript, React, and Version Control for university and Professional students. Trained over 100 students, guided them in building practical projects, and introduced several to internship opportunities. In addition to teaching, led the Computer Department, overseeing curriculum design, mentoring instructors, and improving the overall learning experience.

Full-Stack Developer

Ulearna Technologies LLC - Dubai (Remote) | June 2024 - May 2025

Contributed to the development of the Reab platform as part of a collaborative team of over 25 professionals. Assisted in building frontend features with React and Next.js and supported backend API integration using Nest.js. Gained hands-on experience working with Swagger APIs and Dockerized environments, enhancing both my technical understanding and ability to collaborate effectively on large-scale software projects.

WordPress Developer & Graphic Designer

MOWJ (Mobile Tactic Pty Ltd) – Sydney (Remote) | Jan 2025 – June 2025

Contributed to the development of multiple business and directory websites as a contracted freelance specialist. Assisted in building and customizing WordPress websites using Elementor and custom coding, managed domains and hosting through cPanel, and implemented SEO and performance optimizations. Created high-quality graphics, photos, and videos to enhance website design and social media presence. This experience strengthened both my technical and creative skills, while enhancing my ability to deliver effective digital solutions within a collaborative, client-focused environment.
